

DESCRIPTION

PFF16-604-13

ANTI ROLL BAR TO ARM BUSH

INSTALLATION GUIDE

Contents (parts per pack):

2 x bushes

1 x grease

- all safety precautions adhered to;
- wheel alignment to be checked and adjusted as required after any suspension work. All fasteners must be tensioned to manufacturer's torque settings.

Fitting Instructions:

- Remove the original rubber bush and bracket from the Anti roll bar. Separate the 1. brackets using a drill on the swaged holes, being careful not to drill all the way through as shown in Fig. A.
- Cut out the bonded rubber bush rom the brackets and clean any dust/corrosion 2. from the surface of the Anti roll bar.
- Clean the brackets. Push the new Powerflex PU bush on the Anti roll bar and fit the 3. brackets as shown in the Fig B.
- Re-fit the Anti roll bar on the car and the control arm Fig. C and tension all 4. hardware to manufacturers recommended torque settings.
